Trump Brexit and Echoes of World War I Bloomberg
November 11th, 2017 - For many decades the British people were obsessed with World War II and frankly not much interested in World War I. But that has changed especially since the centenary of 1914. And in this coming final year of commemoration there’s going to be many ceremonies and television programs and books and so on.

Citing Trump and Brexit EU sees euro zone economy risk
February 13th, 2017 - TRUMP BREXIT The “still to be clarified” intentions of US President Donald Trump in “key policy areas” are seen as the first cause of uncertainty for the bloc’s economy. In the near term the possible package of US fiscal stimulus “could provide a stronger boost to global GDP than currently expected” the Commission said.

German industry views Brexit Trump as biggest risks to
December 26th, 2018 - German industry views Brexit Trump as biggest risks to economy. The German economy, Europe’s largest, is expected to post its weakest growth rate in many years in 2018. If Britain left the EU in
March without any agreement on its future relations with the bloc this would create massive uncertainties for trade and business.

**The 15 charts that defined the global economy in 2017**

December 13th, 2017 - Thomson Reuters LONDON – For the financial markets and the global economy 2017 has been a pretty good year. All the major fears about 2017 that dominated the latter stages of 2016 — a market crash in the event of a Trump presidency, a Brexit triggered recession in the UK and a collapse of the eurozone following the implosion of the Italian banking system — have failed to materialise.

**UN sees world growth rising in 2017 threats from Trump**

January 18th, 2017 - UN sees world growth rising in 2017 threats from Trump and Brexit. The Union Flag and the flag of the European Union are seen flying outside a hotel in Milton Keynes north of London on Jan 10 2017. Tax policies espoused by US president elect Donald Trump could also have adverse effects on the world economy.

**Global Risks Report 2017 Reports World Economic Forum**

December 21st, 2019 - Part 1 Global Risks 2017 Share Years of building pressure in many parts of the world at least since the global financial crisis crystallized into dramatic political results during 2016 as public disaffection with the status quo gained traction.
Trump Brexit and a New World Order
November 30th, 2019 - Against a backdrop of rising populism weakening of traditional political parties and a rejection of establishment politics in the United States and Europe how are the twin political earthquakes of Trump’s election and Brexit remaking the world Alexander Betts Michael Dimock Emcee James Fallows Moderator Richard Haass Yascha

Brexit Trump and Development Education Development
December 16th, 2019 - Abstract This article argues that the social and economic inequalities that have fed the growing popular disconnect with mainstream politics manifested by Brexit and the election of Donald Trump as United States president demand more from education. It suggests that a wider adoption of the radical participative empowering and action

Trump calls for World Bank to stop loaning to China
December 21st, 2019 - The World Bank loaned China US $1.3 billion in the fiscal 2019 year which ended on June 30 a decrease from around US $2.4 billion in fiscal 2017. But the fall in the World Bank’s loans to China is not swift enough for the Trump administration which has argued that Beijing is too wealthy for international aid. REUTERS
2017 SHOCK PREDICTIONS How eight key global events could CHANGE the world this year ELECTIONS around the world could bring more political earthquakes as Brexit talks and Donald Trump’s presidency begin
