**How do get the displayed page to shrink to correct iPad**
December 23rd, 2019 - Every now and again when using my iPad 2 I do some gesture by accident that causes the display to expand beyond the boundaries of the iPad screen. I'm not talking about increasing the size of text within Safari or anything like that but the whole display increases several fold in size and only a portion of it is viewable. For instance, if I am

**Solved Ipad Pc Some blank area TeamViewer Community 528**

December 23rd, 2019 - To me like others above it's using about the top 2/3 of the screen. I changed the screen resolution to 1600x900 which is the highest TeamViewer would allow. While of course the display changed to show more Windows screen real estate, the fraction of the iPad screen used didn't seem to change much if at all.
